WASHINGTON, D.C.--Today, Representative Xavier Becerra (CA-31), Vice Chair of the House Democratic Caucus, released the following statement after learning that Arizona Governor Jan Brewer had signed SB 1070 into law:

“This deeply disturbing new law in Arizona will result in innocent people being harassed because of the color of their skin or the intonation of their voice. The days of this type of discriminatory law should be long gone. The American people want a real solution to our broken immigration system that reflects our shared values and our unique history as a nation of immigrants. The time is now to enact comprehensive immigration reform."
