

May 15, 2007

The Honorable Xavier Becerra
1119 Longworth House Office Building
United States House of Representatives
Washington, DC 20515

Dear Representative Becerra:

On behalf of M2Z Networks, Inc., the free, family-friendly wireless broadband internet company, I write to offer my strong support of H.R. 512 and the Senate companion bill, S. 500, the National Museum of the American Latino Community Commission Act of 2007.

At M2Z Networks, we recognize the valuable contributions of Hispanic Americans in building our great nation. The fact is we are a society that thrives on information. Without structures in place to deliver that information, like a national museum or access to broadband internet, the doors will remain closed for millions of Americans and their children to the real history of our nation. With one of the most diverse ownership and management teams of any communications business, M2Z Networks is not only committed to building a broadband data network that will help bridge the digital divide, but we envision our data network serving as an additional gateway for every American to learn the history of the Latino community in America.

The creation of a National Museum of the American Latino in Washington, D.C. would have a profound impact. We applaud your leadership and offer you our full support.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Muleta', written over a large, stylized circular flourish.

John Muleta
CEO and Founder
M2Z Networks, Inc.
