WASHINGTON, D.C. — Representative Xavier Becerra (CA-31), Vice Chair of the House Democratic Caucus, released the following statement responding to his Excellency Felipe Calderón Hinojosa, President of Mexico, after his address to a joint session of Congress:

“Our deep ties and close friendship with Mexico drive us to work together towards a shared prosperity and to find common sense solutions to the problems that both face. I’m encouraged to see Presidents Obama and Calderón collaborating to fix our broken immigration system and to end the flow of illegal drugs and weapons between the United States and Mexico. The people of both countries expect courageous leadership to sustain our economic recovery, create good jobs at home and improve opportunity and security for all our citizens.”
